

Emerson Impact Partner

INVITATION ONLY EVENT

Learn How Reliability Can Maximize Equipment Availability, Achieve Regulatory Compliance, Minimize Maintenance Costs, & Reduce MRO Inventory.

Experitec Reliability Simulation Workshop

CEUs: 8-Hour Learning Engagement

Price: Free

Join us for an immersive, educational experience by taking a simulated journey of how manufacturing and process facilities can step-up their performance. Reliability is more than just uptime or availability; it is a fundamental culture and operations shift. Companies that embrace this change consistently outperform their peers—and typically enjoy safer and more productive working environments. During the workshop, we will cover important concepts of developing a reliability-based strategy, useful tips and tactics to jumpstarting a reliability program, and how to measure results along key KPIs. Participants will learn how every role in a facility can either contribute to, or jeopardize, the efficiency of your plant.

Agenda

Welcome & Kick-off	8:45AM-9:15AM
Business Case for Reliability	9:15AM-10:00AM
Break	
Reliability Simulator & Instructions	10:15AM-11:00AM
Reliability Workshop, Round #1	11:00AM-Noon
Lunch (to be provided)	
Reliability Workshop, Round #2	1:00PM-2:00PM
Break	
Reliability Workshop, Round #3	2:15PM-3:15PM
Break	
Discussion & Lessons Learned	3:30PM-4:00PM

The training event will include a hands-on technical exhibit showcasing a broad range of predictive technologies and various condition-based monitoring tools. Come see how leading reliability companies employ portable, wireless, online, and machine learning systems to improve the health and performance of their most critical assets!

Meet the Experts at Our Seminar

Carl Gober

Systems Engineer & Reliability Specialist, Experitec

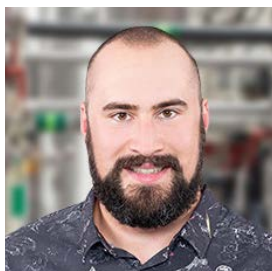

Carl Gober is a Systems and Reliability Engineer who specializes in PdM technology and monitoring system deployments. As a certified vibration analyst and expert in the Emerson predictive toolset, including the Asset Management and Machinery Health Management software suites, Carl has helped countless customers transform their operations. Notably, Carl led the implementation and commissioning of the largest wireless sensor installation in the world for Emerson's Asset Management Systems.

Alain Pellegrino

Vice President, Industrial Reliability Solutions, Lauretide Controls

Alain Pellegrino is a Certified Maintenance and Reliability Professional (CMRP) and Certified Reliability Leader, with over 20 years of Reliability consulting experience. He is the Vice-President of the Industrial Reliability Solutions Business Unit at Lauretide Controls, an Emerson Impact Partner. He leads and manages a team of 180 technical consultants, specializing in instrumentation, condition monitoring and reliability engineering.

François Péloquin

Reliability Consultant, Lauretide Controls

François Péloquin is a member of The Society for Maintenance & Reliability Professionals with 18 years of experience in various industrial roles, ranging from mechanical engineering to maintenance management. He is a senior reliability consultant in the Industrial Reliability Solutions Business Unit at Lauretide Controls, where he partners with manufacturers to develop organizational improvement plans centered on the three pillars of people, process, and technology.

Certificates for Continued Education Units (CEUs) or Professional Development Hours (PDHs) will be provided.

Experitec has served the industry for over 100 years, partnering with our customers to gain competitive advantages and unlock the hidden potential in their facilities. By optimizing operator and control performance, improving asset reliability, creating safer places to work, and helping clients reach their environmental and sustainability goals, Experitec is dedicated to achieving positive outcomes for the businesses we serve. Our unique long-term partnerships with Emerson and others enable us to connect customers with innovative technologies, subject matter expertise, and 24/7 lifecycle support and engineering services. As employee owners, the Experitec team is eager to partner with you on your next automation or reliability project in a positive, driven, and collaborative way. We have local offices in St. Louis, MO; Kansas City, MO; Memphis, TN; Calvert City, KY; and Decatur, IL; as well as warehouse and service locations in the surrounding areas.
